(Surah Najam: Verse:39)

CELEBRATION OF SUCCESS

With respect and gratitude, we acknowledge that The University of Larkano is located on the ancestral lands of the Indus Valley civilization and the historically rich region of Sindh. This land has long been a center of learning, culture, and innovation, enriched by the diverse communities that have called it home. We honor the contributions of these communities and commit ourselves to fostering an inclusive environment that upholds the values of diversity, equity, and respect. Our university's efforts toward progress and reconciliation are embedded in research, education, community engagement, and social upliftment. These efforts are guided by the shared vision of our university, local leaders, and broader communities to make education a beacon of hope and opportunity

OUR ETHOS: What Sets Us Apart!

VISION

To provide innovative and interdisciplinary education, research, and outreach programs that address global challenges and contribute to the sustainable development of society.

MISSION

Our mission is to be the world's leading university for students aspiring to succeed in engineering & technology, agriculture, science and law professions, where original research enterprise and inspiring teaching, deliver local and global impact.

Our Value

Student Success

Empowering our students to excel in their academic and professional journeys, creating a brighter future for themselves and their communities.

Excellence

Demonstrating responsibility toward organizational excellence, environmental preservation, and societal well-being

Sustainability

Striving for distinction in teaching, research, and community service by consistently delivering our best and improving continually.

Message from the **Vice Chancellor**

I am delighted to extend a warm welcome to you on behalf of the University of Larkano, a pioneering institution formed through the merger of four distinguished faculties: Engineering & Technology, Social Sciences & Humanities, Agriculture, and Law. This union represents a bold step towards holistic education, offering a diverse range of academic disciplines under one roof.

At the University of Larkano, we are committed to excellence in education and research across multiple fields. Our integrated approach enables us to provide comprehensive undergraduate programs that blend theoretical knowledge with practical skills, preparing you to tackle real-world challenges with confidence and innovation. Whether your passion lies in designing cutting-edge technologies, exploring the complexities of human behavior, nurturing sustainable agricultural practices, or upholding justice and equality through the law, our faculty members are dedicated to supporting your academic journey and empowering you to achieve your aspirations.

As Vice Chancellor, I take pride in our university's commitment to fostering a culture of intellectual curiosity, critical thinking, and ethical leadership. Our state-of-the-art facilities, world-class faculty, and vibrant campus community create an environment where learning transcends boundaries and where each student is encouraged to explore their potential to the fullest.

Reflecting on 2025, this annual report highlights the significant milestones achieved by the university during the past year. From groundbreaking research and innovative academic programs to impactful community engagement initiatives, we have made strides that align with our mission of becoming a beacon of knowledge and progress in the region. These achievements are a testament to the relentless dedication of our faculty, staff, and students. As we step into another promising year, let us continue to strengthen our vision of empowering individuals with quality education, fostering innovation, and building a brighter future for all. Together, we will chart new paths of excellence and contribute meaningfully to society.

Prof. Dr. Muhammad Usman Keerio
Vice Chancellor , UOL

Message from the Convener

As we reflect on 2024, I am immensely proud of the University of Larkano's progress and accomplishments over the past year. Our University has continued to thrive as a hub of academic excellence, innovation, and impactful research, contributing significantly to empowering knowledge and progress.

In 2024, we hosted a vibrant project exhibition that showcased the creativity and ingenuity of our students, along with a food stall initiative that encouraged entrepreneurial skills. To further inspire and motivate our students, an award ceremony was organized to celebrate their achievements and hard work. Additionally, the Electrical department conducted a highly engaging seminar on PCB design, equipping participants with practical skills for modern electronics development. Most notably, we were successful in securing a grant of 4.7 million PKR for establishing a state-of-the-art Power Electronics and Renewable Energy Integration Lab, a milestone that will significantly enhance our research and learning capabilities.

Looking ahead to 2025, we are committed to building on these achievements by introducing advanced academic programs, expanding collaborative research opportunities, and strengthening our industry partnerships. We aim to create even more avenues for our students to develop practical skills and contribute meaningfully to society as future leaders in engineering and technology.

As we move forward, University will continue to prioritize excellence, innovation, and community impact. Together, we will work toward shaping a brighter, more sustainable future.

Dr. Syed Abid Ali Shah
Chairman Department of
Electrical Engineering

SCHOLARSHIPS & FINANCIAL ASSISTANCE

In order to support and provide financial assistance, The University has established Students Financial Aid Office (SFAO). This year a total of 175 scholarships. This year, a total of 175 scholarships were awarded, reflecting our commitment to supporting deserving students in their academic journey. These scholarships include merit-based awards, need-based assistance, and special scholarships for underrepresented groups. In addition to these, the university also provided financial assistance to students facing economic challenges, ensuring that financial constraints do not hinder their education.

INDUSTRIAL EXPERIENCE & INTERNSHIP OPPORTUNITIES

The university is committed to bridging the gap between academic learning and industry practices, offering students invaluable exposure through various industrial experiences and internship opportunities. These programs are designed to provide students with hands-on experience, enhance their technical and soft skills, and prepare them for successful careers in their respective fields. The university organizes regular industrial tours to allow students to visit leading companies and manufacturing facilities. These tours offer students an opportunity to observe operations, interact with professionals, and gain insights into industry practices.

ACADEMICS

& INDUSTRIAL COLLABORATION

The Electrical Engineering Department has consistently demonstrated its commitment to fostering academic and industrial collaborations by signing numerous Memorandums of Understanding (MoUs) with renowned institutions and industry leaders. These partnerships aim to bridge the gap between theoretical learning and practical applications, providing students with opportunities for internships, hands-on training, and exposure to cutting-edge technologies. Collaborative research projects with industry partners focus on addressing real-world challenges in areas such as renewable energy, smart grids, and automation, while academic collaborations enable faculty and students to engage in joint research, curriculum development, and knowledge-sharing initiatives. By hosting co-organized workshops, seminars, and certification programs, the department ensures its stakeholders remain aligned with global technological trends, ultimately enhancing the quality of education, research output, and professional readiness of its graduates.

INTERNATIONAL STUDENTS

The university takes immense pride in its students, who continue to excel in their academic pursuits by enrolling in prestigious master's and PhD programs at leading international universities. This achievement highlights the strong academic foundation, research capabilities, and global exposure provided by the university, which prepare students to compete and succeed on an international level. Our alumni have been accepted into top-tier universities across the globe. They pursue advanced degrees in diverse fields such as engineering, computer science, business, biotechnology. This global presence reflects the high quality of education and training imparted by the university.

impact

The University of Larkano is committed to advancing sustainable development by integrating its academic and research activities with the United Nations Sustainable Development Goals (UN SDGs). The University of Larkano has demonstrated a strong commitment to promoting sustainable development through its academic and research activities. By mapping seven key components, The University of Larkano has identified areas where it can contribute to achieving the United Nations Sustainable Development Goals. Through these efforts, our University is making a significant impact towards creating a more sustainable future and promoting global progress towards achieving the SDGs.

The Office of Research, Innovation & Commercialization

The Office of Research, Innovation, and Commercialization (ORIC) at The University of Larkano (UOL), represents a fundamental step in fostering a robust research culture among students, faculty, departments, and institutes.

ORIC incentivizes research by encouraging faculty and students to generate intellectual properties, innovate through research, and commercialize products for national benefit. We aim to build a trustworthy bridge between the university and industries. Leading educational institutes requires passionate commitment and deep research expertise in today's competitive environment. Our faculty and departments continuously strive to enhance their teaching standards and research quality, making our students valuable members of society

QUALITY ENHANCEMENT CELL

A Quality Enhancement Cell (QEC) in a university is responsible for ensuring and improving the quality of education and research within the institution. Its primary duties include the development and implementation of quality assurance policies, the establishment of benchmarks for academic and administrative standards, and the continuous monitoring and evaluation of academic programs.

The QEC collaborates with various departments to promote a culture of continuous improvement, facilitates the accreditation process, and ensures compliance with Quality Assurance Agency (QAA) of Higher Education Commission (HEC). It also organizes training and development programs for faculty and staff, collects and analyzes feedback from stakeholders, and prepares comprehensive reports to guide strategic planning and decision-making processes.

DIRECTOR FINANCE

Dr. Asif Ali is an experienced finance and audit professional with over 20 years of experience in the public sector. Currently serving as Director Finance at the University of Larkano, he specializes in financial management, compliance, performance auditing, and strategic planning.

Dr. Ali holds a Ph.D. in Economics from the University of Karachi and advanced certifications, including Fellow Public Finance Accountant (FPFA), IPSAS, and Information Systems & Audit from CIPFA, UK. His notable achievements include successfully managing high-profile audits, such as the Layari Expressway Resettlement Project, earning him commendation from the Prime Minister's Office. As an academic, Dr. Ali has taught at leading institutions and published over 28 research papers in HEC-recognized and international journals, focusing on socio-economic issues, financial development, environmental sustainability, and agricultural economics. Proficient in financial forecasting, performance measurement, and public procurement regulations, Dr. Ali is committed to promote governance excellence and financial integrity. As Director Finance at the University of Larkano, he plays a crucial role in ensuring the institution's financial sustainability and growth.

Board of Faculty – BoF Meetings
2024

BOARD OF FACULTY MEETING

BoF- 2024

The Board of Faculty convened multiple sessions this year to strategize academic and operational excellence. Key achievements include:

- **Curriculum updates** to align with industry standards and emerging technologies.
- Approval of new research initiatives fostering interdisciplinary collaborations.
- **Enhanced faculty development** programs for skill advancement.
- **Strengthening partnerships** with global institutions to encourage exchange programs.
- **Evaluation and approval of budget allocations** for academic projects.

These meetings have significantly contributed to the university's mission of providing quality education and promoting impactful research

Advanced Studies & Research Board Meeting - ASRB- 2024

The ASRB convened in 2024 to advance the university's research agenda and academic framework. Key outcomes included:

- **Approval of innovative research** proposals across diverse disciplines.
- **Review and endorsement** of thesis topics for Bachelors Students.
- **Strengthening research** funding mechanisms and fostering industry-academia linkages.
- **Initiatives to promote publications** in high-impact journals.
- **Development of policies** to encourage interdisciplinary research and innovation.
- **The ASRB remains committed** to elevating the university's research profile globally.
